SKILLS

- **Languages:** JavaScript, HTML, CSS, Ruby
 - **Frameworks:** Bootstrap, Node, Express, Sinatra, Ruby on Rails, Angular
 - **Database:** PSQl, MongoDB
-

PROFESSIONAL EXPERIENCE

General Assembly – Web Development Immersive

June 2016 – September 2016

- General Assembly's Web Development Immersive program is an intensive, 3-month long course, where you learn the basic concepts of computer programming and all the necessary languages and frameworks to become a junior full stack developer.
- Spent 90+ hours per week learning and applying various coding languages and theories.
- **Projects:**
 - Utilized Ruby, Sinatra, and JavaScript to build a mortgage pre-qualification app. The app allows a user to input basic information about themselves. The information is stored in a database where some calculations are run against the users input. The calculations decide if you pre-qualify for a mortgage based on minimum industry accepted qualification guidelines.
 - Utilized JavaScript, HTML, and CSS to build a matching game.
 - Worked on a team of four and utilized Ruby on rails to build an app that helps people understand where they fall on the political spectrum.

FirstBank - Banking Officer

March 2013 - June 2016

- Effectively managed through a large vendor software issue that affected over 25,000 customers.
- Worked closely with the IT department for 12 months to reverse engineer the vendor's process so that we could successfully correct the issue.
- Worked with IT to develop SQL queries to extract data from various databases throughout the bank.
- Managed through CFPB investigation as a result of the software issue.
- Collaborated and presented with all levels of upper management including CFO, CRO, COO and Board of Directors.
- Managed the Mortgage Servicing portfolio for FirstBank with a net asset value of \$600,000,000
- Managed a team of up to 32 people including a small call center to ensure the day-to-day operations of the department were running efficiently and that customer issues were taken care of.

Prospect Mortgage, LLC - Licensed Mortgage Loan Originator

March 2012 –March 2013

- Assessed clients' long and short-term financial and investment goals as well as payment, principle, equity, tax and cash flow objectives in order to recommend appropriate loan product.
 - Managed and coordinated loans through processing and underwriting to ensure on-time closings.
 - Maintained client database and marketing portal while meeting monthly production requirements
-

EDUCATION

University of Colorado at Boulder – Leeds School of Business

- Bachelor of Science in Business Administration with an emphasis in Finance and Real Estate
